Corinne and Chester will review some general background information as well as provide some recent nuclear updates on **Japan's Fukushima** plant. Learn about pertinent nuclear issues here in the Great Lakes region including transporting nuclear waste on the **Great Lakes**. Finally, they will provide the audience with a wealth of information for follow-up including websites and contact information for many non-profit organizations in Washington, DC. **DVDs** will be available for at-cost purchase of some speaker presentations at the "**Nuclear Threats to the Great Lakes and Transition to Clean Safe Energy**"~ International Roundtable Conference in Dearborn, Michigan earlier this year.
